Who We Are
U.S. Pain is built on the belief that connecting with others who share the same struggles, frustrations and dreams of recovery is important.

U.S. Pain is a non-profit organization serving people with pain, their families and care providers.

Our mission is to connect, inform and empower those living with pain while advocating on behalf of the entire pain community.

U.S. Pain was created by people with pain for people with pain. U.S. Pain provides healthy support groups and many other positive programs for those living with pain.

What We Do:
Founded by a fellow person with pain, U.S. Pain understands the challenges and struggles those with pain endure. It is our goal and commitment to help bring the pain community together, so we all find the help, resources and strength to move forward.

Empower:
U.S. Pain website and newsletters include valuable resources and links to current pain related information such as stress reduction and coping techniques, or activities to help pain patients stay creative and mentally active.

Advocate:
U.S. Pain tools and publications enable pain patients to communicate more effectively with care providers, family members, friends and others.
